SUMMARY

I have been working with web development since 2010, the period during which I have worked in different environments, from big consultancy companies to start-ups. I am a self-motivated and self-taught professional who likes to solve problems.

I merge a passion for usability and user experience with technical knowledge to create cool digital experiences. My repertoire includes programming languages and tools such as ReactJS, EmberJS, Mobx, Wordpress, SailsJS, MySQL, PostgreSQL, Nginx and Apache server configuration, Gulp, SASS, LESS, Twitter Bootstrap, Susy, jQuery, and more.

EXPERIENCE

React Developer

Amaris

📅 01/2019 - 08/2019   📍 Dublin

As the first developer to integrate the team in this greenfield project, my goal is to create interfaces for our new product utilizing ReactJS + Sass, using Mobx as our state management system. The main focus is to create reusable components that could be used in future projects by the team.

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality

Consultant Developer / Dev Lead

Amaris

📅 10/2016 - 01/2019   📍 Dublin

Amaris is an international Technologies and Management Consulting Group with more than 60 locations around the world. My job here is to work inside our client to develop great digital solutions for pharmaceutical industries.

- Develop web applications based on Sharepoint, Drupal 8 and Episerver
- Lead a team of 10 front end developers, giving support to the client's multi-cultural team, providing feedback, clarifying requirements and helping with technical questions
- Keep the Project Manager and the IT Leads updated on the overall progress of the projects and manage the tasks distributed to the team
- Keep the code and the features implemented by the other developers in accordance to the requirements

WHAT I'M PROUD OF

🗡️ **My courage**
to always leave my comfort zone. I'm not afraid to do whatever I need to do to achieve my goals!

🎯 **My Focus & Persistence**
Despite any hard situation, I keep my focus on my goals and always move towards them.

EXPERIENCE

Full Stack Developer
Pixel Addiction
📅 08/2011 - 01/2018   📍 Anywhere

Pixel addiction was my digital agency. I was working collaborating with other developers and agencies

- Front End development
- Design easy user interfaces and great user experiences for the digital platforms of small companies
- Wordpress development, including themes creation or customization, custom plugins development and training
- E-commerce maintenance with Fastcommerce, a Brazilian e-commerce platform
- E-commerce development with Magento, customizing preexisting themes
- Integrate external services such as payment services, delivery, etc into Magento solutions
- VPS configuration and optimization (Apache & Nginx)

Product Developer
ContaPaga Instituição de Pagamentos S/A
📅 06/2014 - 07/2015   📍 São José dos Campos / BR
🔗 moneto.app

ContaPaga (now called Moneto) is a financial startup based in Brazil. They focus on self-employed people without a bank account, turning their smart phones into payment terminals and making it easier for them to invoice clients. I was in the original team, being the second developer to be hired, what gave me the chance to see how a product is born.

- Product development using NodeJS (SailsJS and Ember), integration with AWS and external financial tools.
- Advising the designer on User Experience, giving feedback about how to improve the overall experience of the application for the end user.

Web Developer
Arriba! Comunicação
📅 08/2012 - 06/2014   📍 São José dos Campos / BR

Advertising Agency with focus on regional clients. I was responsible basically for all the aspects of the development, from design to server configuration and deployment

- Full stack development
- Custom WordPress themes creation, allowing the client to take control over the content of the website
- Design, development and set-up of e-mail marketing campaigns
- User Experience and User Interface design
- E-commerce development and maintenance using Fastcommerce platform

Front End Programmer
Wunderman Technologies
📅 10/2010 - 07/2011   📍 São Paulo / BR

Maintenance of Nokia's websites for LATAM, US and Portugal

- Front end development
- E-mail marketing development and set-up using the VirtualTarget platform

WHAT I'M PROUD OF

My Flexibility & Adaptability

I've left a small village with 1000 people to live in São Paulo, a megacity with 11 million
people, and I didn't have any problem with that. Then I left my country to live in Ireland and I'm doing well.

EXPERIENCE

Webmaster

Grupo Interativa

📅 05/2010 - 10/2011   📍 Taubaté / BR

Small advertising agency focused on local clients

- Front end development with xHTML 1.1, CSS 2.1 and jQuery, based on W3C standards.
- Back end development with ASP
- SEO optimization
- Image manipulation with Photoshop and Fireworks
